**Bottom:**

BALLISTIC 450D RE

100% Polyester (Recycled)

The Duffle bag gives you a whole 30 litres of stow space and can be used as a sports bag, travel bag, etc. Inside the spacious main compartment, there's an additional zipped pocket that runs along the whole length of the bag, which provides an ideal place to stow your towel or dirty laundry away from your clean clothes. The front pocket is equipped with a water repellent zip, so important little essentials can be safely stowed within easy reach. The padded, adjustable shoulder strap can be removed when not required. The main material and the lining are made from recycled materials. The reflective detailing is highly visible and accentuates the clean design.
