Jack  
Wolfskin

Weekdays in your home town, weekends away in Paris or London - you're always on the move. And the fun doesn't have to stop when it starts to rain. Just pull on your packable waterproof smock and you'll stay dry. The rain jacket is super light and takes up very little space in your pack. The jacket has a clean, contemporary design and is made of a robust and breathable TEXAPORE fabric. The hood can be stowed in the collar of the jacket. The large front pocket is ideal for keeping those small, important items close at hand when you're on the move, and it also doubles as a stow pouch for the jacket.
